Mathematics – Grade 1

Self – learning Module

Quarter 1 – Module 3B: Comparing Two Sets Using the Expressions “Less Than”, “More Than”, and “As Many As” and Ordering Sets from Least to Greatest and Vice-versa.

First Edition, 2020

Republic Act 8293, section 176 states that: No copyright shall subsist in any work of the Government of the Philippines. However, prior approval of the government agency or office wherein the work is created shall be necessary for exploitation of such work for profit. Such agency or office may, among other things, impose as a condition the payment of royalties.

Borrowed materials (i.e., songs, stories, poems, pictures, photos, brand names, trademarks, etc.) included in this book are owned by their respective copyright holders. Every effort has been exerted to locate and seek permission to use these materials from their respective copyright owners. The publisher and authors do not represent nor claim ownership over them.

❖ What I Need to Know

The module presents the following:

Content standard

- The learner demonstrates understanding of whole numbers up to 100, ordinal numbers up to 10th, and money up to PhP100.

Performance standard

- The learner is able to recognize, represent, and order whole numbers up to 100 and money up to 100 in various forms and contexts.

Most essential learning competency

- The learner compares two sets using the expressions “less than”, “more than”, and “as many as” and orders sets from least to greatest and vice-versa.

❖ What I Know

- A. Count orally from 1- 100.
(Mag-isip sang matunog halin 1 asta 100.)
- B. Draw a set that has more objects than the given set.
(Magdrowing sang grupo nga may mas madamo nga butang sang sa ginhatag.)

- C. Draw a set that is less than the given set.
(Magdrowing sang grupo nga may mas diutay nga butang sang sa ginhatag.)

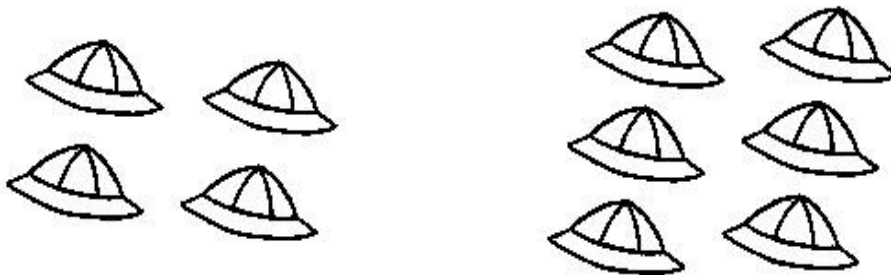

D. Color the set that has more objects.
(Duagi ang grupo nga may mas madamo nga butang.)

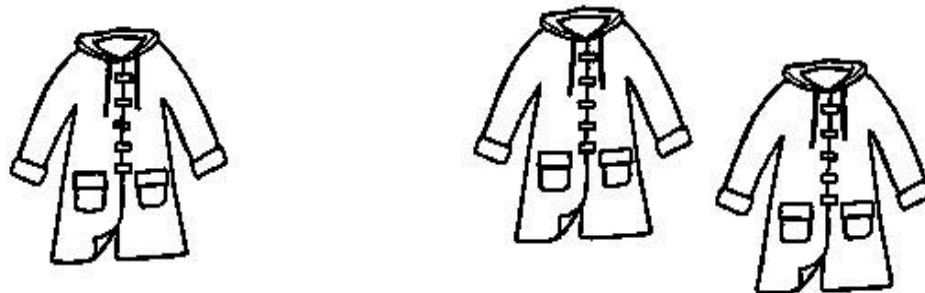

1.

2.

3.

4.

❖ What's In

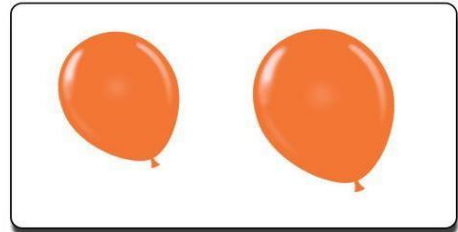

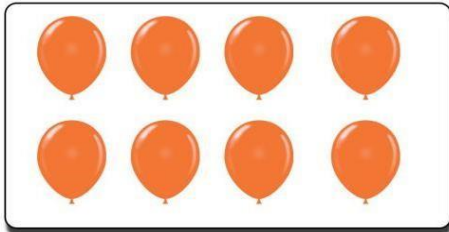

A. Count the number of objects in each box and compare them.

(Isipa kon pila ang mga butang sa sulod sang mga kahon kag ikumpara ini.)

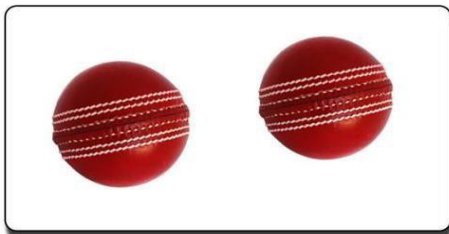

1.

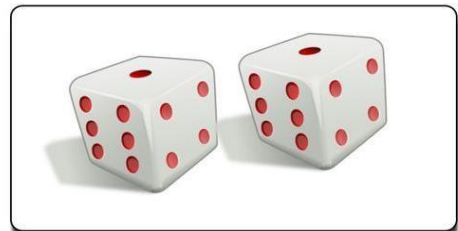

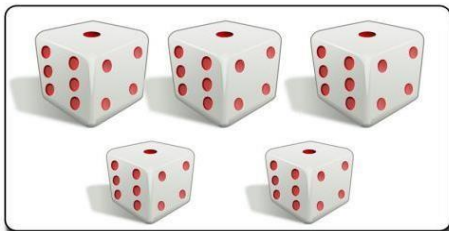

2.

3.

4.

❖ What's New

Mark went to a bookstore to buy some pencils. He got 3 white pencils, 5 red pencils, and 2 yellow pencils. *(Naglakat si Mark sa baligyaan sang libro para magbakal sang mga lapis. Nagbakal sia sang 3 ka puti nga lapis, 5 ka pula nga lapis kag 2 ka dalag nga lapis.)*

1. Compare the white pencils and the red pencils. *(Ikumpara ang mga puti kag ang mga pula nga lapis.)*
2. Compare the yellow pencils and the white pencils. *(Ikumpara ang mga dalag kag ang mga puti nga lapis.)*
3. Compare the yellow pencils and the red pencils. *(Ikumpara ang mga dalag kag ang mga pula nga lapis.)*
4. Compare the red pencils and the yellow pencils. *(Ikumpara ang mga pula kag ang mga dalag nga lapis.)*
5. Compare the white pencils and the yellow pencils. *(Ikumpara ang mga puti kag ang mga dalag nga lapis.)*
6. Put together the yellow pencils and the white pencils. *(Upuron ang mga dalag kag mga puti nga lapis.)*
7. How do you compare the quantity of the yellow and white pencils with the quantity of the red pencils? *(Paano mo ginakumpara ang kadamuon sang mga dalag kag puti nga lapis sa kadamuon sang mga pula nga lapis?)*

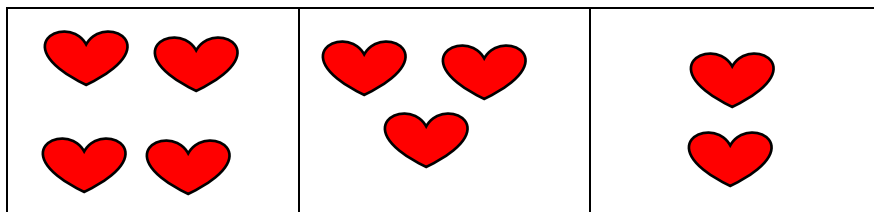

❖ What Is It

1. Arrange the group of pencils from the fewer ones to the most numbered.
(Pasunuron ang mga grupo sang lapis halin sa diutay pakadto sa pinakamadamo.)
2. Arrange the set of pencils from the most numbered to the fewer number of pencils.
(Pasunuron ang mga grupo sang lapis halin sa pinakamadamo pakadto sa pinaka diutay.)

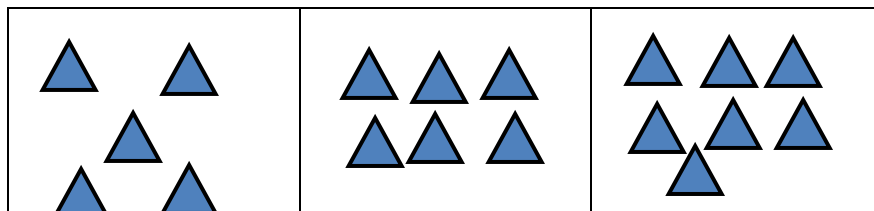

❖ What's More

A. Answer Check ($\checkmark$) if the sets are arranged from least to greatest, and answer (X) if not.
(Sabtan sang tsek ($\checkmark$) kon ang mga grupo napasunod halin sa pinaka diutay pakadto sa pinakamadamo kag ekis (x) kon indi.)

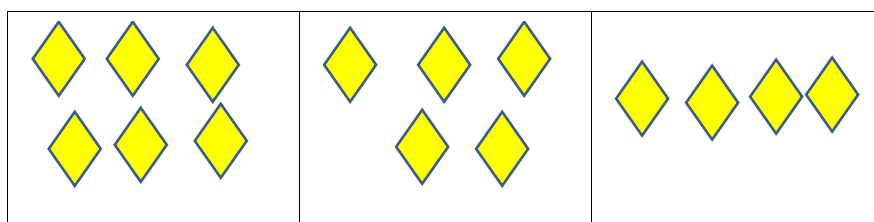

1.

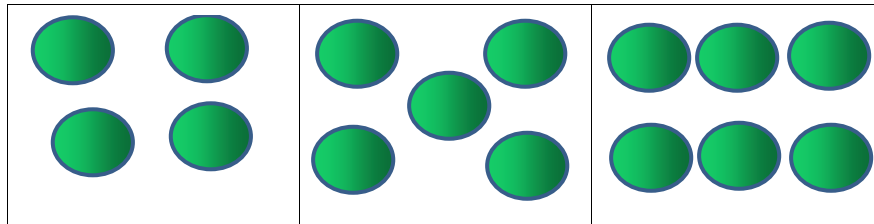

2.

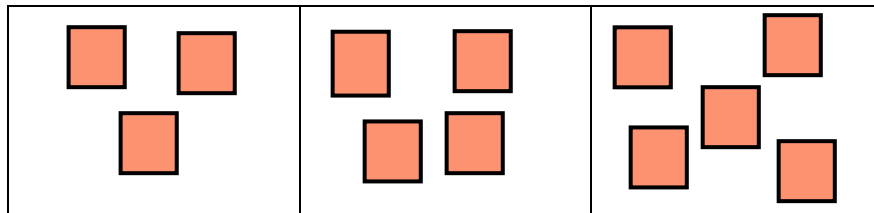

3.

4.

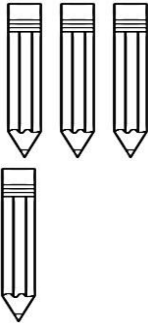

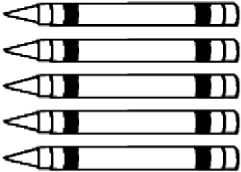

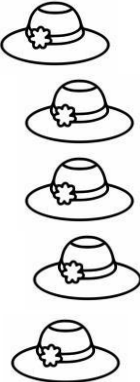

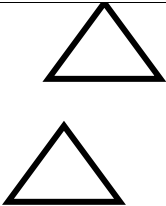

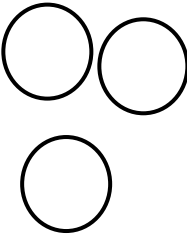

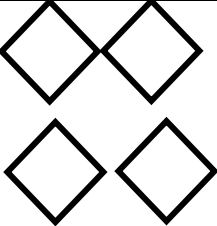

5.

B. Arrange from greatest to least number of objects. Use A, B, C to represent the order of the objects.
(Pasunuron ang mga butang halin sa pinakamadamo pakadto sa pinakadiutay. Gamiton ang A, B kag C para irepresentar ang mga butang.)

Answer	A	B	C
1. _____			
2. _____			

3. _____			
4. _____			
5. _____			

❖ What Have I Learned

- Say “**more than**” if the set of objects or number on the left is greater in quantity than the set of objects or number on the right. The symbol for “more than” is $>$.
(Ihambal ang “**mas madamo**” kon ang mga butang ukon numero sa wala mas damo ang isip sang sa mga butang ukon numero sa tuo. Ang simbolo sa “mas madamo” amu ang $>$.)
- Say “**as many as**” If the group of objects or number on the left has the same quantity with the group of objects or numbers on the right. The symbol for “as many as” is $=$.
(Ihambal ang “**pareho kadamo sa**” kon ang mga butang ukon numero sa wala pareho kadamo sa mga butang kag numero sa tuo. Ang simbolo para sa “pareho kadamo sa” amu ang $=$.)
- Say “**less than**” if the group of objects or number on the left is less in quantity than the set of objects or numbers on the right. The symbol for “less than” is $<$.
(Ihambal ang “**mas diutay**” kon ang mga butang ukon numero sa wala mas diutay ang isip sang sa mga butang ukon numero sa tuo. Ang simbolo sa “mas diutay” amu ang $<$.)
- In comparing more than 2 sets of objects or numbers, the one with the smallest quantity is called the **least** and the most numbered is called the **greatest**.
(Sa pagkumpara sang sobra sa duha ka grupo sang mga butang, ang grupo nga diutay ang isip ginatawag nga **pinakadiutay** kag ang may daku nga numero ginatawag nga **pinakamadamo**.)

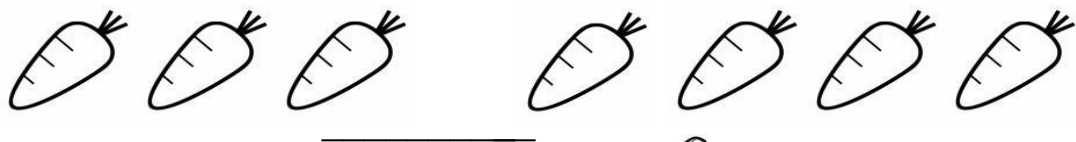

- Ordering numbers from the least to the greatest is called **increasing order**. (Ang pagpasunod sang numero halin sa pinakadiutay pakadto sa pinakamadamo ginatawag nga pataas nga pagpasunod.)
- Ordering numbers from the greatest to the least is called **decreasing order**. (Ang pagpasunod sang numero halin sa pinakamadamo pakadto sa pinakadiutay ginatawag nga panubo nga pagpasunod.)

❖ What Can I Do

Do you like fruits and vegetables? These are good for you. Color the fruits below and compare by writing the symbols “**more than**”, “**less than**” or “**as many as**”.

(Nanamian ka bala sang mga prutas? Manami ini para sa imo. Duagan ang mga prutas sa idalom kag ikumpara ini paagi sa pagsulat sang simbolo sang **mas madamo**, **mas diutay** ukon **pareho kadamo**.)

1.

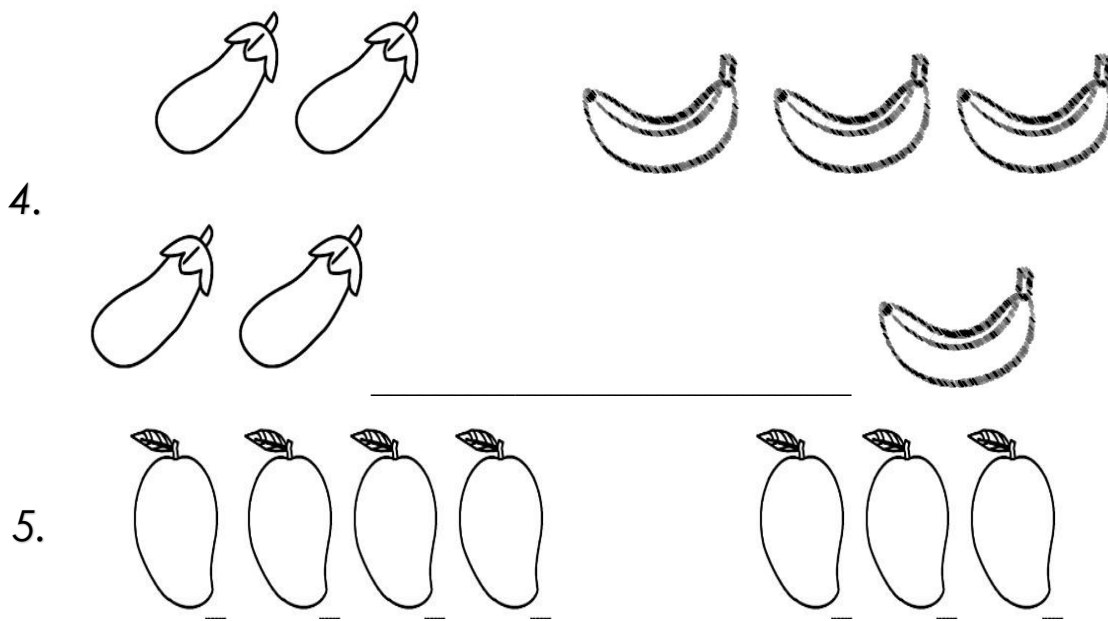

2.

3.

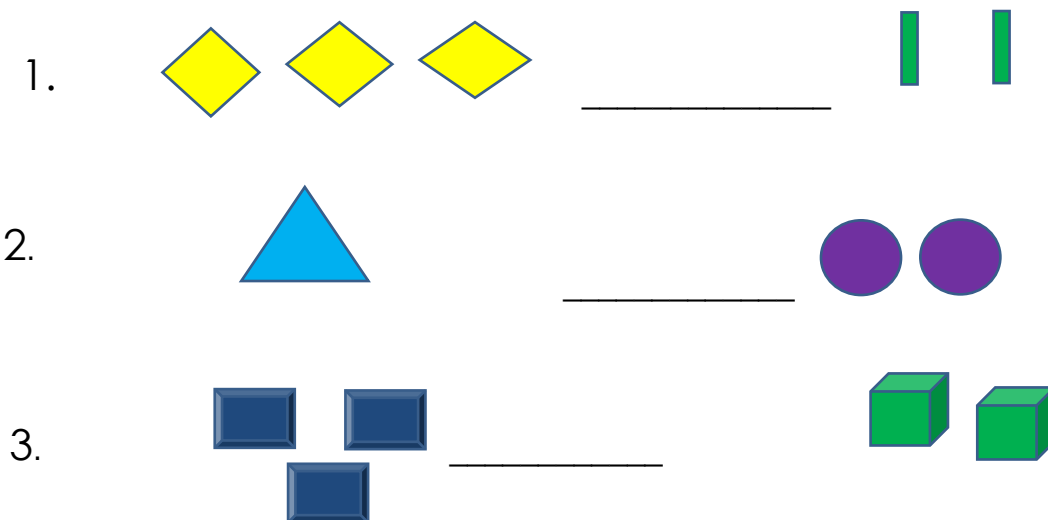

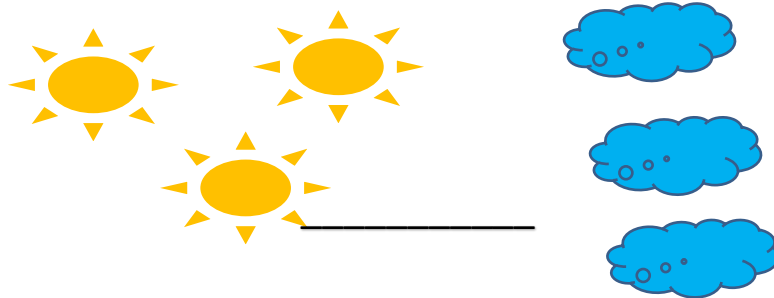

❖ Assessment

- A. Count the objects in each set and compare them. Write the words “**more than**”, “**less than**”, or “**as many as**” in the blank.

(Isipon ang mga butang sa kada grupo kag ikumpara ang mga ini. Isulat ang mga tinaga nga **mas madamo**, **mas diutay** ukon **pareho kadamo** sa blangko.)

4.

5.

B. Compare the following sets using the symbols $<$, $>$, or $=$.
(Ikumpara ang mga grupo paagi sa paggamit sang mga simbolo nga $<$, $>$, ukon $=$.)

1.

2.

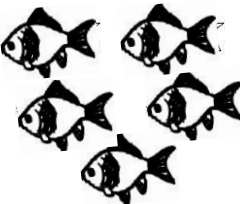

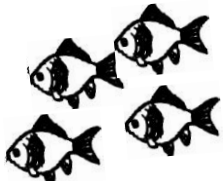

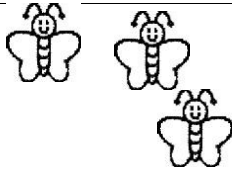

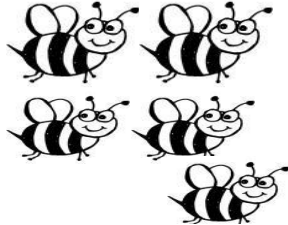

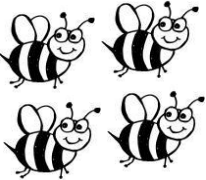

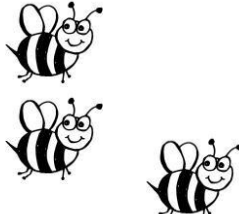

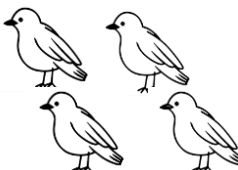

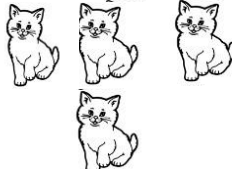

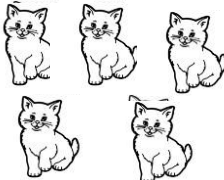

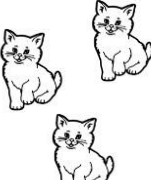

3.

❖ Additional Activities

Arrange the following sets from least to greatest. Use ABC to represent the order of the objects.

(Pasunuron ang mga grupo sang mga butang halin sa pinakadiutay pakadto sa pinakamadamo. Gamiton ang ABC para irepresentar ang pagpasunod.)

Answers	A	B	C
_____ 1.			
_____ 2.			
_____ 3.			
_____ 4.			
_____ 5.			

❖ References

❖ Answer Key

What I Know

B. 

C. 

D. Colors may vary for:

1.

2.

3.

4.

What's In

1. Set A has more objects.
2. Set A has more objects.
3. Set A has fewer objects.
4. Set A has more objects.

What's New

1. White pencils are fewer than the red pencils.
 2. Yellow pencils are fewer than the white pencils.
 3. Yellow pencils are fewer than the red pencils.
 4. Red pencils are more than the yellow pencils.
 5. White pencils are more than yellow pencils.
 6. There are 5 yellow and white pencils.
 7. The yellow and white pencils are as many as the red pencils.
1. 2 yellow pencils, 3 white pencils, 5 red pencils
 2. 5 red pencils, 3 white pencils, 2 yellow pencils

What Is It

What's More

- | | | | | |
|--------|--------|--------|--------|--------|
| 1. X | 2. / | 3. X | 4. / | 5. / |
| 1. BAC | 2. BCA | 3. CAB | 4. BAC | 5. BCA |

What I Can Do

1. <
2. =
3. <
4. =
5. >

Additional Activity
