Wishes

What is your wish?
I wish to have a bag with
a pretty pink tag.

What is your wish?
I wish to have a watch
with a gold ring to match.

What is your wish?
I wish to have two dresses.
I will pay you with hugs
and kisses.

What is your wish?
I wish that you will be my
friend and our friendship
won't end.

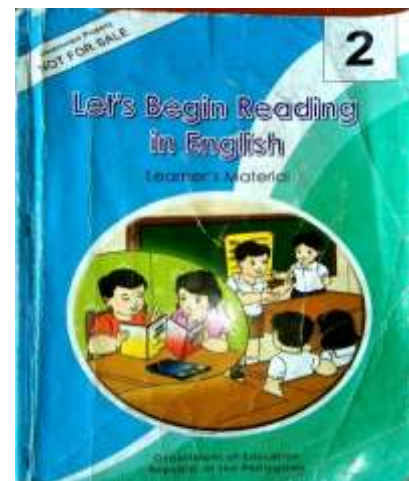

Dear Pupil,

Would you like to become "GREAT" someday?

It is our dream to see you grow with a thinking mind, problem solving skills, and creative decision-making skills in dealing with your daily life activities. With this dream, we have developed this Grade 4 Learning Materials in Mathematics.

We believe that you are one of the children in today's world capable of learning creatively. For this reason, we have designed meaningful and varied activities that will develop your knowledge and skills for the 21st century in this book. They are based on the standards and competencies expected of you in the K to 12 Basic Education Program. We are sure that you will love working on them.

Presentation and Discussion

Let's Begin reading in English Learner's Materials

Look at the picture above. What comes into your mind upon seeing this? There are many words that say about the picture and some of these maybe are family, happy, picnic, enjoy, and many more.

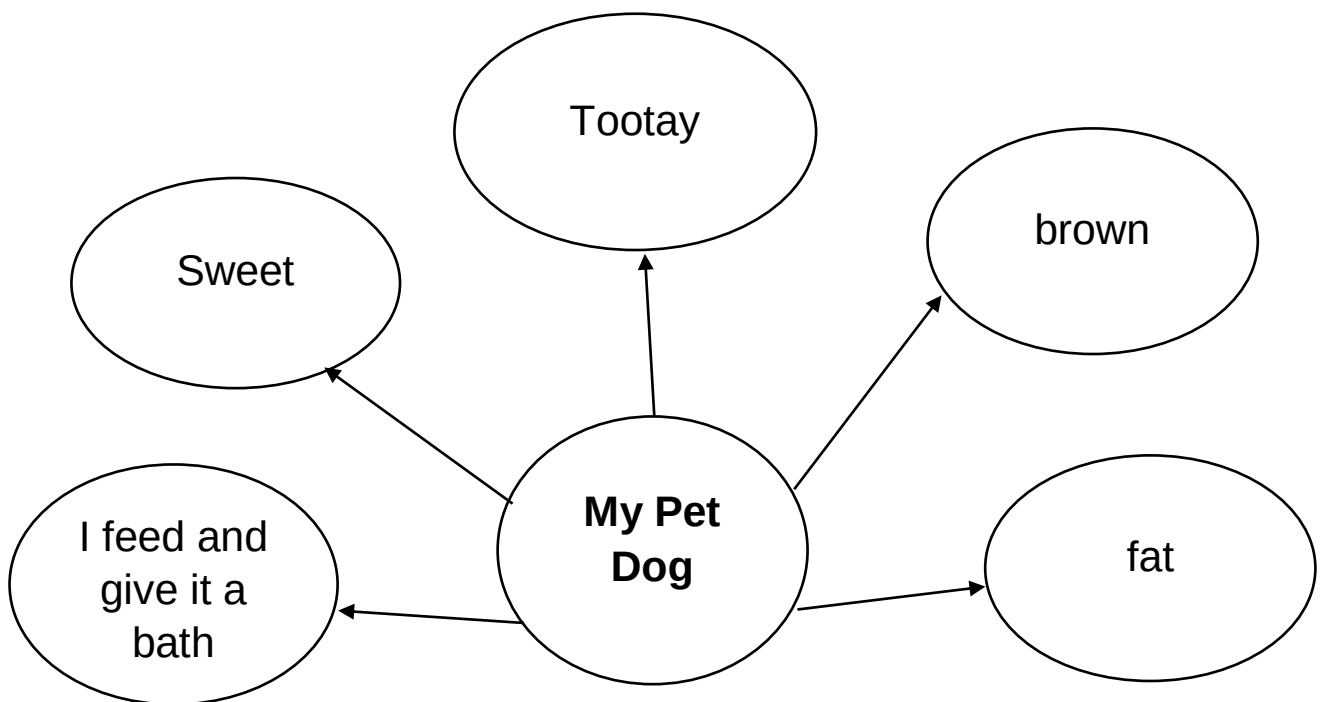

Thinking of the things about a certain picture or topic is a part of pre- writing. Today, we are going to talk about pre- writing activities that will help you generate ideas.

Pre- writing is a part of a writing process that allows you to gather ideas easily. The first thing you do is to understand the topic, then analyze the purpose why you write about it, and then begin drafting.

One way to do so is by listing. It is a simple listing of ideas that run through your mind upon hearing a key word. Let's study the example. I am asked to list down the pets we have at home.

dog
cat
chicken
hamster
pig

From my list, my favorite pet is a dog. Below is an organizer I used to show the ideas about my pet.

Inside the circle is the main topic which is My Pet Dog and the oblongs tell some things about it.

Let's study another example. Let's write all the ideas that pop into your head when you hear the word "school" and these maybe are:

clean	draw	snacks	Kindergarten
classmate	sing	recess	pupils
children	dance	flag	notebooks
teachers	crayon	books	paper
principal	blackboard	eraser	
pencil	chalk	read	play
chairs	ballpen	bag	write
			tables

You now have a bucket list of ideas about your school.

Another way to get ideas is through imaging or illustrating. It is simply getting your ideas through a picture. When you are asked to enumerate the very important things to do to avoid Covid-19, you can just draw them like:

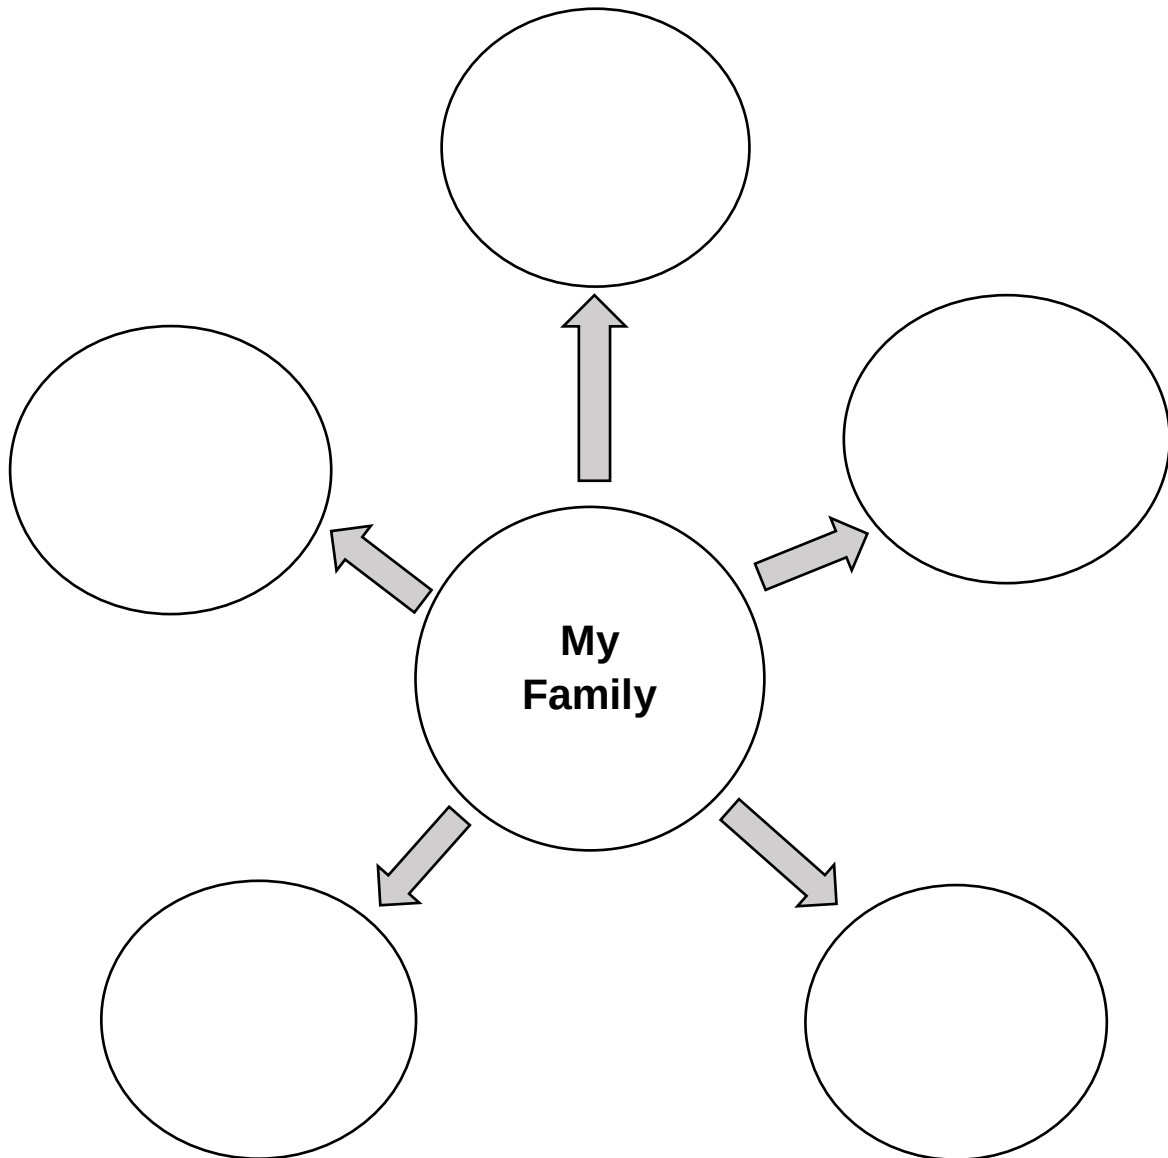

In pre- writing, you can easily get ideas that are important and connected to each other which you may use in your future writing activities.

Now it's your turn! Try the following activities.

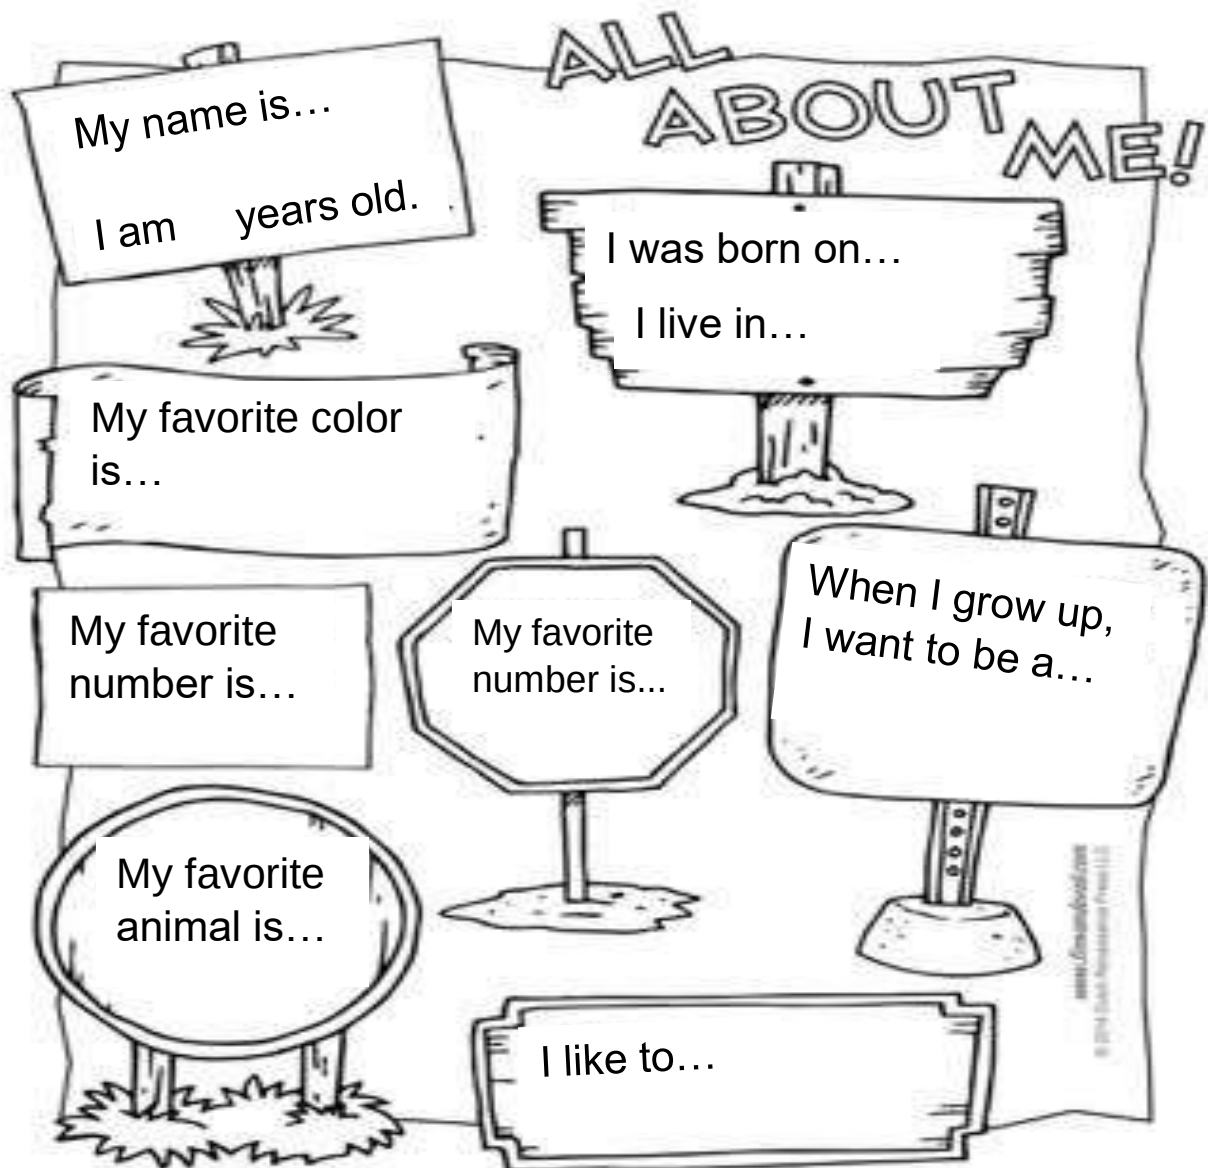

Activity 1

Direction: Complete the web organizer. Draw inside the circles any ideas about the topic at the center.

Activity 2
