Section 9 of Presidential Decree No. 49 provides:

“No copyright shall subsist in any work of the Government of the Philippines. However, prior approval of the government agency or office wherein the work is created shall be necessary for exploitation of such work for profit.”

This material has been developed for the implementation of K-12 Curriculum through the Curriculum Implementation Division (CID) – Learning Resource Management and Development System (LRMDS). It can be reproduced for educational purposes and the source must be acknowledged. Derivatives of the work including creating an edited version, an enhancement or a supplementary work are permitted provided all original work is acknowledged and the copyright is attributed. No work may be derived from this material for commercial purposes and profit.

PREFACE

This module is a project of the Curriculum Implementation Division particularly the Learning Resource Management and Development Unit, Department of Education, Schools Division of Benguet which is in response to the implementation of the K to 12 Curriculum.

This Learning Material is a property of the Department of Education- CID, Schools Division of Benguet. It aims to improve students' performance specifically in Mathematics.

Date of Development	: May 2020
Resource Location	: Schools Division of Benguet Kapangan District
Learning Area	: Mathematics
Grade Level	: 2
Learning Resource Type	: Module
Language	: English
Quarter/Week	: Q2/W8
Learning Competency/Code	: Visualizes multiplication of numbers 1 to 10 by 2,3,4,5 and10. M2NS-IIh41.1

ACKNOWLEDGEMENT

The developer wishes to express his gratitude to those who help in the development of this learning material. The fulfillment of this learning material would not be possible without these people who gave their support, helping hand and cooperation.

DIVISION LRMDs STAFF:

MELVIN L. ALFREDO

Multiplying Numbers 1 to 10 by 2,3,4,5 and 10

Module in Mathematics 2
Second Quarter Week 8a

LOLLY VHENN C. ACCOS
Developer

What I need to Know

This module is based from the learning objectives which a learner expected to learn. It is a way for the facilitator to measure your performance based from the result at the end of the module.

Multiplication tables for 2, 3, 4, 5 and 10 are the first set of multiplication tables students learn in 2nd Grade because they follow easy-to-remember patterns and are therefore more “friendly” than other multiplication tables.

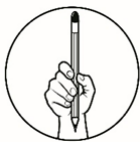

Learning Objective:

At the end of this module, you are expected to:

Make sure to visualize what multiplication means, i.e. you should be able to interpret 4×2 as meaning “four groups of two”. Then to start with skip counting, i.e. 2, 4, 6, ... and then move on to using dot paper (dots in rows and columns to represent the total).

To achieve the objectives of this module, you are expected to do the following:

1. Take your time reading the lessons carefully.
2. Follow the directions and/or instructions in the activities diligently.
3. Perform all the given tests and exercises.
4. To check your answer if correct, refer to the key answer.
5. If needed, you may ask assistance from anyone knowledgeable to help you better understand the lesson.

What I know

Write the letter of the correct answer on your paper.

- 1) What operation is the shortcut for repeated addition?
 - A. subtraction
 - B. multiplication
 - C. division

- 2) What do you call the numbers to be multiplied?
 - A. factors
 - B. addends
 - C. difference

- 3) What is the answer in multiplication?
 - A. sum
 - B. difference
 - C. product

- 4) In the multiplication sentence $8 \times 3 = 24$, 24 is called
 - A. multiplier
 - B. multiplicand
 - C. product

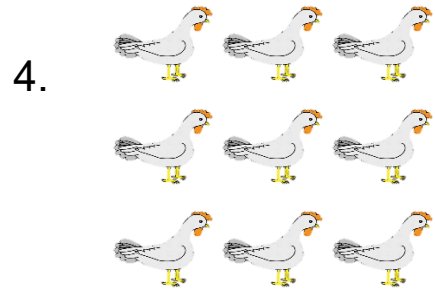

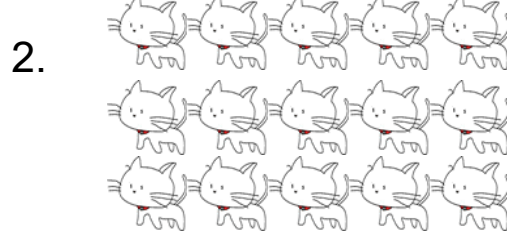

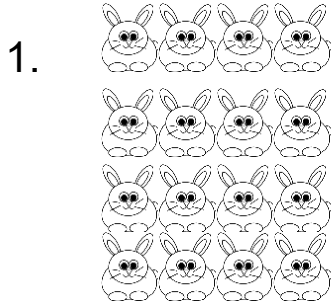

- 5) What is the product of 3×7 ?
 - A. 21
 - B. 18
 - C. 14

Check your answers using the Answer Key on page 12. Did you get a perfect score? If yes, excellent! Congratulations. But if you did not, do not worry because after reading this module you will improve your score. Good luck and enjoy learning.

What's In

A. Write an addition sentence for each.

B. Tell if each group of numbers shows skip counting by 2s, 3s, 4s, 5s, or 10s.

1. 27, 30, 33, 36, 39

2. 65, 70, 75, 80, 85

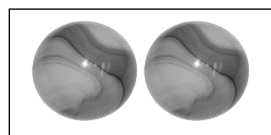

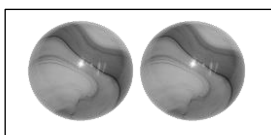

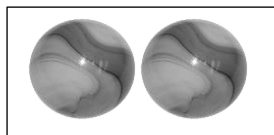

3. 12, 22, 32, 42, 52

4. 48, 52, 56, 60, 64

5. 16, 18, 20, 22, 24

What's New

Look at the picture.

How many marbles are in group 1? (2)

How many marbles are in group 2? (2)

How many marbles are in group 3? (2)

How many marbles are in the three groups? (6)

What's in It

Let us solve the problem in three ways.

1. Do skip counting by 2s: 2, 4, 6

2. Write an addition sentence: $2 + 2 + 2 = 6$ (Therefore, multiplication is the shortcut of repeated addition.)

3. Write a multiplication sentence for 3 groups of 2

$$\underbrace{3 \times 2}_{\text{factors}} = 6 \longrightarrow \text{product (answer in multiplication)}$$

factors (numbers that we multiply)

This may also be written as

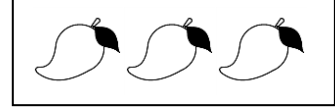

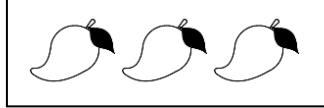

$$\begin{array}{r} 3 \\ \times 2 \\ \hline 6 \end{array} \begin{array}{l} \text{factors} \\ \longrightarrow \text{product} \end{array}$$

Therefore, there are 6 marbles in all.

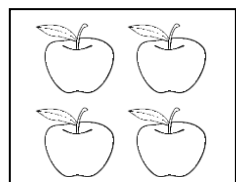

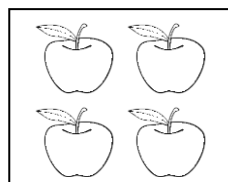

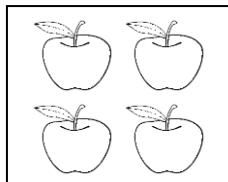

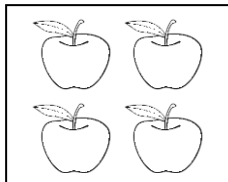

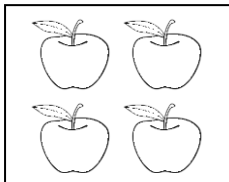

What's More

Activity 1. Study the pictures, then answer the questions after it.

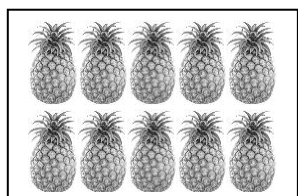

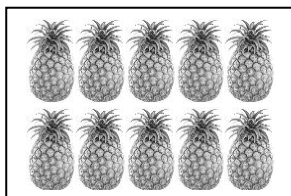

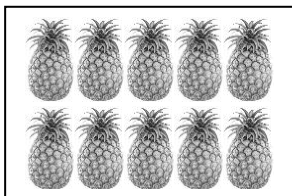

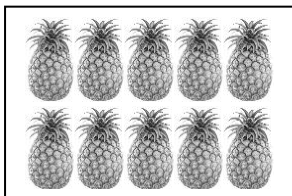

1. How many mangoes are in each set? _____
2. How many sets of mangoes are there? _____
3. How many mangoes are there in all? _____
4. Write a multiplication sentence. _____

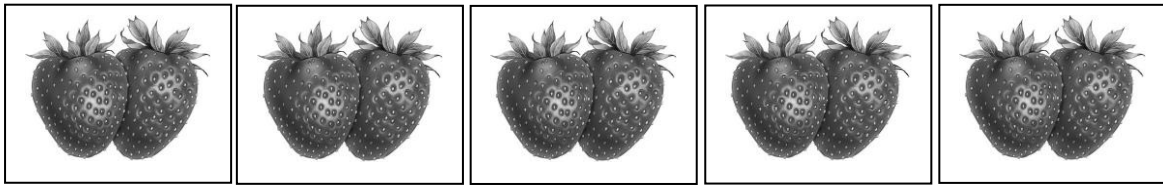

Assessment 1. Write an addition and a multiplication sentence for each.

- 1.a. _____
- b. _____

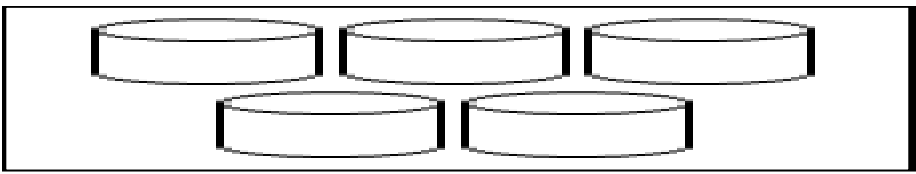

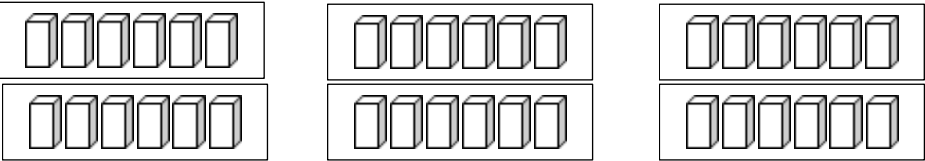

- 2.a. _____
- b. _____

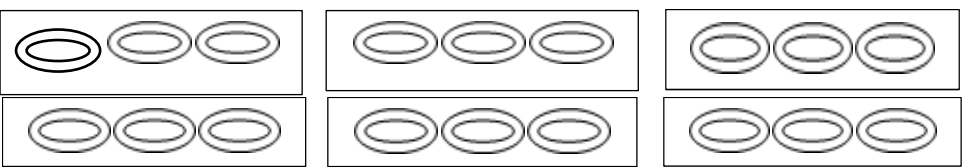

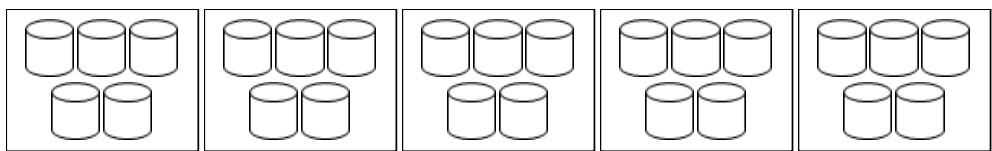

3.a. _____
b. _____

Activity 2. Find the product.

1. 
 $1 \times 5 = \underline{\quad}$

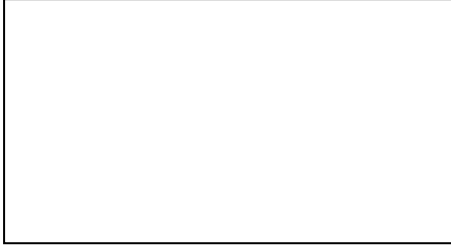

2. 
 $6 \times 6 = \underline{\quad}$

3. 
 $6 \times 3 = \underline{\quad}$

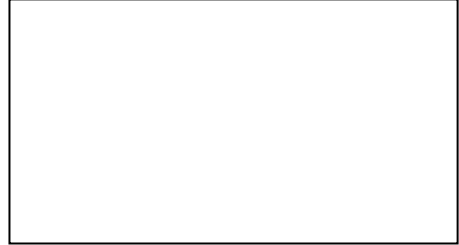

4. 
 $5 \times 5 = \underline{\quad}$

Assessment 2. Draw objects to show each multiplication sentence. Then write the product.

1. $2 \times 2 = \underline{\quad}$

2. $4 \times 3 = \underline{\quad}$

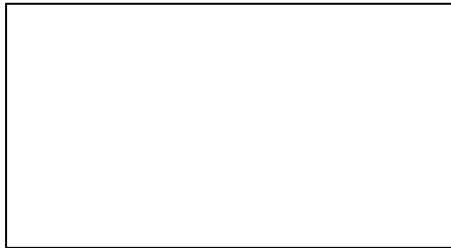

3. $5 \times 2 = \underline{\quad}$

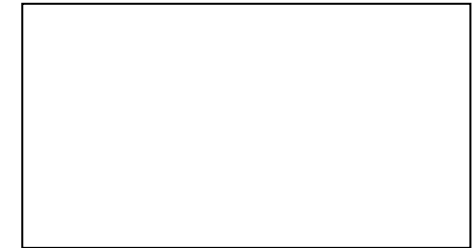

4. $3 \times 1 = \underline{\quad}$

5. $4 \times 7 = \underline{\quad}$

6. $2 \times 4 = \underline{\quad}$

Activity 3. Multiply each number by 3 then write the product in the other square.

0	4	6
7	2	3
9	5	8

$\times 3$
→

	12	

Assessment 3. Multiply.

1. $3 \times 2 =$ _____

6. $5 \times 9 =$ _____

2. $5 \times 6 =$ _____

7. $6 \times 2 =$ _____

3. $2 \times 5 =$ _____

8. $3 \times 5 =$ _____

4. $9 \times 2 =$ _____

9. $2 \times 8 =$ _____

5. $4 \times 6 =$ _____

10. $8 \times 5 =$ _____

What I Have Learned

Fill in the blanks to answer the question or complete the statement.

1) What is the shortcut for repeated addition? _____.

2) The numbers to be multiplied are called _____.

3. What is the answer of multiplication? _____.

What I can do

Match the factors and products.

1. $3 \times 6 =$

2. $7 \times 6 =$

3. $10 \times 6 =$

4. $1 \times 6 =$

5. $7 \times 3 =$

6
18
24
36
27
42
48
21
60
54

6. $4 \times 6 =$

7. $8 \times 6 =$

8. $9 \times 6 =$

9. $6 \times 6 =$

10. $9 \times 3 =$

Post – Assessment

Complete the following multiplication table.

X	1	2	3	4	5	6	7	8	9	10
1	1									
2		4								
3			9							
4				16						
5					25					
6						36				
7							49			
8								64		
9									81	
10										100

Additional Activity

Give the products.

1. $2 \times 4 = \underline{\quad}$

6. $2 \times 9 = \underline{\quad}$

2. $5 \times 3 = \underline{\quad}$

7. $3 \times 7 = \underline{\quad}$

3. $4 \times 4 = \underline{\quad}$

8. $5 \times 4 = \underline{\quad}$

4. $7 \times 2 = \underline{\quad}$

9. $8 \times 5 = \underline{\quad}$

5. $5 \times 5 = \underline{\quad}$

10. $4 \times 9 = \underline{\quad}$

Answer Key

What I Know

1. B 2. A 3. C 4. C 5. A

What's In

- A. 1. $4+4+4+4=16$ 2. $3+3+3+3+3=15$
 3. $2+2+2+2+2=14$ 4. $3+3+3=9$
 B. 1. 3's 2. 5's 3. 10's 4. 4's 5. 2's

What's More

1. 3 2. 3 3. 9 4. $3 \times 3 = 9$
 Activity 1
 b. $5 \times 4 = 20$
 1. a. $4+4+4+4=20$ 2. a. $10+10+10+10=40$ 3. a. $2+2+2+2+2=10$
 Assessment 1
 1. 5 2. 36 3. 18 4. 25
 Activity 2
 1. 4 2. 12 3. 10 4. 3 5. 28 6. 8
 Assessment 2 (with drawing as representation)

27	15	24
21	6	9
0	12	18

- Activity 3
 1. 6 2. 30 3. 10 4. 18 5. 24 6. 45
 7. 12 8. 15 9. 16 10. 40
 Assessment 3

What I Have Learned

1. multiplication 2. factors 3. product

What I Can Do

1. 18 2. 42 3. 60 4. 6 5. 21 6. 24
7. 48 8. 54 9. 36 10. 27

Post - Assessment

0	1	2	3	4	5	6	7	8	9	10
1	1	2	3	4	5	6	7	8	9	10
2	2	4	6	8	10	12	14	16	18	20
3	3	6	9	12	15	18	21	24	27	30
4	4	8	12	16	20	24	28	32	36	40
5	5	10	15	20	25	30	35	40	45	50
6	6	12	18	24	30	36	42	48	54	60
7	7	14	21	28	35	42	49	56	63	70
8	8	16	24	32	40	48	56	64	72	80
9	9	18	27	36	45	54	63	72	81	90
10	10	20	30	40	50	60	70	80	90	100

Additional Activity

1. 8 2. 15 3. 16 4. 14 5. 25 6. 18
7. 21 8. 20 9. 40 10. 36
