What's In

In our previous lesson, we were able to discuss what Folk Dance. Folk dances are traditional dances of our country, which were evolved naturally and spontaneously, on connection with everyday activities and experiences of the people who developed them. We also discuss the Fundamental Dance Position of the Arms and Feet.

For this module, we shall further discuss the importance of the different movements of the hands, arms, feet and movements with the partner in Folk Dancing. In this module, you will choreograph a Folk Dance using these movements combined. Are you familiar with them? Let us begin!

What's New

Activity 1: WORD SEARCH. Find and circle the listed words related to hands, arms, and feet movements in folk dance. The words may be horizontally, vertically, or diagonally placed and they may even be backward. Good luck!
